

# SWIRL DIFFUSER

**Model : DD-SWD - Fixed Blades**

## Description

- DD-SWD fixed swirl diffuser can be used for supply air applications.
- Completely in galvanised steel sheet, powder-coated white RAL9010, 9016.
- Simple and pleasant appearance.

## Plenum (solds separately)

- Plenum box to suit swirl diffusers has a central bar running through the span of box, with a M6 nutsert located centrally.

- Swirl diffuser is fitted to the box using a cross headed bolt (supplied) which is inserted through the fixing hole in the centre of diffuser, and into the nutsert.

- By tightening the bolt, DD-SWD is pulled up until it sits on the box flanges.

**Model : DD-SWD - Fixed 24 Blades**

**Selection Table**

NOMINAL SIZE	FACE SIZE	Air Flow (m <sup>3</sup> /h)	Pressure Drop (Pa)	Sound Power Level SPL in dB
400 x 24 D350	395 x 395	430	100	53
		370	70	48
		280	40	42
		230	30	37
		200	20	32.5
		145	10	24
500 x 24 D350	495 x 495	450	100	55
		375	70	48
		285	40	42
		245	30	37
		210	20	33
		150	10	25
600 x 24 (*) D535	595 x 595	770	100	57
		650	70	48
		500	42	42.5
		400	27	35
		350	20	31.5
		300	16	27

**Note (\*)**

- 600 x 24: Nominal Size x Number of Blades.
- D535: core diameter (mm).
- 595 x 595: overall size.
